## PAINT THE TOWN WITH EXIDY'S CRUSH ROLLER

Exidy Ireland introduces CRUSH ROLLER... the cleverest game you've ever seen. You try to paint the streets of this chaotic little town, while two mischief-makers follow your tracks, trying to knock over your paint can, and causing you to lose a turn. You can only crush them with rollers, located on particular streets. Other critters- a kitten, a mouse, a bird, a runaway tire, a wild cat, and an invisible man ruin your nice, colorful paint job by leaving their unique tracks behind. You must paint over the pests and then repaint the surface for bonuses and new towns to paint.

As an added option, an "escape hole" appears at different places in the town, which only the player can use. CRUSH ROLLER's strategy, challenge and fun will keep players playing- and laughing- for hours!
